                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         a modified polylinker: Site_1: Not 1: Site_2: Eco RI:
Equal amounts of plasmid DNA from five normalized
libraries were mixed, and as circles were made in vitro.
Following MAP purification, this DNA was used as tracer in
a subtractive hybridization reaction. The driver was
PCR-amplified CDNAs from pools of 5,000 clones made from
the same 5 libraries. The pools consisted of the following
libraries and cloneries: Soares NBHSF pool 1:

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  NOTICE: This sequence may not represent the entire insert of this clone. It may be shorter because we only sequence overlapping clone sections once, or longer because we provide a small overlap between neighboring data submissions.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   The clone RP5-1091E12 from base position 192688 to 192794 is an approximate representation of a tandem repeat. There are approximately 800 bases of this tandem missing according to the restriction digests: ecorRV band size real at 5047, insilico at 4288; hindili band size real at 10980, insilico at 10434; bamhi
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           one male donor.
The clowe may be obtained either from Genome Systems, Inc. (http://www.genomesystems.com) or Research Genetics, Inc. (http://www.resgen.com); or from Pieter de Jong.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 http://www.nhgri.nih.gov/DIR/GTB/CHR7 , send
